

Dear Colleagues and Friends

Thank you for registering to attend the first **IFAA Virtual Symposium on World Anatomy Day, 15 October @10.00-12.00 UTC**.

The response to this initiative has been overwhelmingly positive with more than 500 registrations thus far. We thank you for your support and for partnering with us in this event. We look forward to a timely discussion on anatomy education during these strange times and beyond.

Here is more information to enable you to participate in the forum fully:

1. Program

The Symposium program is attached to this email for your reference.

2. How to join the symposium:

A few minutes before the start time, the Zoom link to join the symposium will be published @ <http://www.ifaa.net/worldanatomyday/> If you would like to participate in the discussion, please join via the Zoom link. A livestream of the symposium will also be available at this URL.

3. How to comment or pose questions for discussion at the symposium:

A Sli.do discussion forum has been set up and is already active. Please access this at www.sli.do using the event code: **IFAA2020**

The forum is already open and active so you can add questions and comments immediately. We are particular keen to hear your thoughts on both the challenges and opportunities for the discipline at this time. You can also ‘up-vote’ comments and questions that you support so that they get discussed sooner.

We would appreciate if you **do not** post an product advertisements.

4. Registration is still open

Registration for the symposium is @ bit.ly/IFAA Symposium Please continue to share this event within your networks

We are looking forward to the meeting and discussion tomorrow.

If you have any queries, please contact me.

Best wishes

Nalini Pather
